EXPERIENCE

SCOR
May 2018 – PRESENT, *Associate Actuary*

- Manage the SQL database, which is used to store quarterly reserves and create retro for assumed treaties
- Collaborate with colleagues as the main point of contact for database entry, issues and questions
- Review and adjust model reserves quarterly in order to accurately report reserves for Scor
- Manage client relationships for third party reporting, including ownership of reserves and analyzing trends in data

Protective Life
August 2016 – December 2017, *Actuarial Associate UL Valuation*

- Completed quarterly and monthly reports for segments of the UL business
- Updated PolySystems model to include the latest reprice of products and created new code to resolve errors
- Worked with agents to create Interpolated Terminal Reserves for policy holders

August 2013 – August 2016, *Actuarial Associate – Product Development – UL Pricing*

- Renovated pricing workbooks resulting in a reduction of runtime from days to hours
- Improved Life pricing efforts by combining all products' MG-ALFA models into one model allowing for the projection of all products to be done simultaneously
- Repriced several different life products resulting in reduced premiums, while keeping the product profitable
- Managed and trained summer interns and new hires

May 2013 – August 2013, *Internship – Product Development*

- Participated in the internship program, which provided a broad overview of the insurance industry from Executive leadership and the opportunity to cross-share and collaborate across all departments at Protective Life
- Researched and created reports based on policy level information that was used to update and design the business populations used in the pricing of life insurance products

Merrill Lynch
August 2012 – May 2013, Internship - *Wealth Management*

- Assisted Financial advisors by preparing materials and new investment opportunities for client meeting account reviews
- Researched, wrote reports and made recommendations on new mutual funds to include in client portfolios

S. Andrew Walton Investment Planning
May 2012 – August 2012, *Internship – Wealth Management*

- Created and updated client portfolios by examining financial reports of individuals and small businesses, resulting in growth in expected portfolio returns and increases in overall diversification of risk
- Advised clients on all aspects of their financial wellbeing from an individual's portfolio and pension plan, to a company's discussion on employee health care options
